

AKUMS

TAKING INDIA TO THE WORLD

Akums wins the stringent EU GMP certification for its Plant 1 and Plant 3.

We are proud to announce our two manufacturing facilities in Haridwar have received approval from European Union. Our Solid Oral Dosage plant where Tablets,Capsules and Powders of general category are produced got approved along with the General and Penicillin section plant which produces Ampoules,Vials,-

FFs(SVP),LVP,3-Pc packs & Pre-filled Syringes & Dey Powder injections in vials. This is no small feat considering European Union regulations are the most stringent across the world. This not only opens up the

market in 50 European countries but in USA as well. With our success story in India of 12% market share

and long-standing relationship with top pharma companies, we are hoping to write a new chapter of success in the EU market. We thank everyone who believed in Akums and everyone who made it happen with

their grit and determination. Come, let's take India's potential to the world.

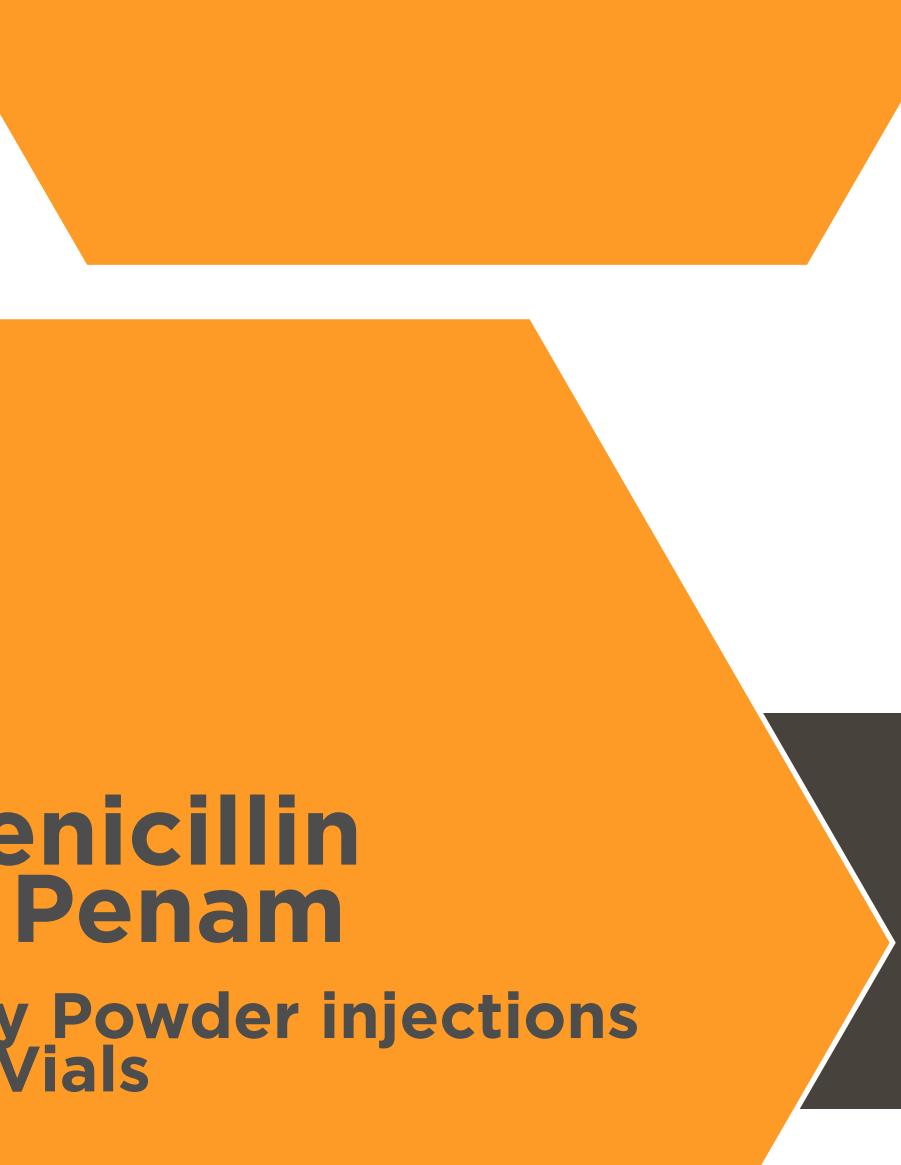

HERE QUALITY IS ALL ABOUT NO-COMPROMISES.

Quality, innovation and customer satisfaction are the virtues at Akums. The approach is technology driven to serve the emerging needs in the ever expanding market. Our infrastructure is equipped with sophisticated and modern equipment and machines, with huge per-day manufacturing capacities in all sections.

WE MANUFACTURE IN MORE WAYS THAN ONE.

DOSAGE AND CAPACITIES
